

Model BV2842OD-4

## 28" Vertical Computing Station with Open Display

Driven by issues such as patient satisfaction, worker retention and heightened competition, healthcare facilities are undergoing a quality and design revolution.

Our 2842OD series fits the need for having an ultra-small footprint in a patient room or hallway. The monitor is constantly visible while the keyboard is accessible by unlocking the pull down keyboard door. At four inches in depth, the 2842OD is perfect for most hallway applications and is HIPAA compliant.

### VITAL STATISTICS

**BV2842OD:** Wood with class-A, fire-rated laminate 31" W x 42" H x 4" D
