

Model BV2842

28" Vertical In-Room Computing Station

The new standard in healthcare is a wellness environment that embraces comfort and aesthetic design with strategic function and flow that promotes caregiving, supports staff and prevents the spread of infection.

The 2842 is growing into our most popular cabinet as decentralized nursing becomes a prevailing practice. The 2842 can accommodate many computing options and can house our articulating arm with 180° swivel.
