

BV3227-4

32" Laptop/Paper Charting Station

As fixed elements in a room, computer and medication storage solutions from HospitalMobility.com reduce cross-contamination and keep patient areas free from impediments. These durable, functional patient areas provide everything staff members need to care for their patients and meet or exceed best-practice requirements.

For laptop computing we offer the 3227 series. This flexible unit can be used in many hallways as well as in patient rooms for laptop and tablet computing.
