

**Mobile point-of-care
computing has never been
so convenient or affordable.**

LC3000

The NorthPort LC3000 is an incredible point-of-care computing cart offering quality engineered features, all while maintaining an affordable price point.

Intelligent Design

The work surface on our carts can be easily adjusted for use while sitting or standing with a height adjustment of over 14".

The small base footprint of only 16" x 18" combines with dual-wheel, low-friction, 360° swivel casters allowing the LC3000 to be moved easily with minimal effort.

The LC3000 can house full sized keyboards and even the largest widescreen laptops, such as the Acer, Dell and many others.

Work surface has a raised edge to keep items from rolling off cart.

Antimicrobial paint finish helps prevent the growth of bacteria.

Hospital grade power cord.

Built in cable management.

Locking laptop compartment.

Light weight at 63 pounds.

Convenient options
